## *This is the one !*

Throw your leg over the new Yamaha YZF750R and you can expect a whole lot more than high-performance.

Because this all-new class-leading superbike is also designed to deliver the fun, freedom and excitement that can only be experienced on 2 wheels!

With its aluminium Deltabox frame, advanced front and rear suspension and high-powered 20 valve EXUP engine, nothing is going to come close to the YZF experience.

Absolutely nothing!

## YZF750SP. Move on up!

If you're aiming for the top then you had better take a look at the new YZF750SP from Yamaha. Because that's where the most advanced superbike we've ever produced is heading.

A production racing version of the YZF750R, the SP features VM-type carburetors, fully adjustable front and rear suspension and a close ratio 6-speed gearbox.

Straight from the crate this machine wants to win.

Just like you!
